The Association of Destination Management Executives (ADME) has awarded **The Arrangers DMC** their Charter Accredited Destination Management Company (ADMC) designation.

One of only (24) Destination Management Companies (DMC) world-wide to receive this inaugural accreditation, The Arrangers met the ADMC program standards and completed a successful review of their application by the ADMC commission. Program standards included requirements that measure longevity and stability of the company, their commitment to the DMC industry and their service levels to clients.

ADME's Destination Management Company Accreditation program is designed to elevate professional standards and designate firms that demonstrate advanced knowledge and experience essential to the practice of destination management. The accreditation is indicative of the highest quality destination management service providers.

"I congratulate those companies who have achieved the Charter designation and applaud them for taking this important step for our industry," said ADME's President Ilene Reinhart, DMCP, CMP. "The program is designed to set the standards and industry best practices for Destination Management Companies and will enable clients to identify professional DMCs when they are searching for an industry partner."
